Processing Information note

Main processing of collection occurred between March 8, 2023 and July, 2025. Collection continues to grow, so there is no processing end date. Box 14 is listed and will be used for future years once Box 13 is full.

General note

Prior to processing, the newspaper clippings were mostly arranged by year, but many were not labeled beyond that. Research was done to better organize them, but some are in a folder by just the year. The small clippings are in Boxes 15-18 and are arranged, as well as possible by year, month and day. Where the sheets are crowded, clippings were found in the wrong year and had to be added as best able.
